### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Marlana Titus on 12/05/06.

The application has been amended as follows:

Claims 12-23, line 1, after "hand-operated" --cutting-- was inserted.

2. The following is an examiner's statement of reasons for allowance: The claim is allowable because the prior art fails to teach a detachable one-piece upper handle shell that is positioned to cover at least substantially the handle portion on the user side and extends below at least substantially a foot portion as set forth in claim 12.

Green et al. teaches a handle portion 20, a foot portion (24, 20a and 28) positioned on a bottom side of the handle and a detachable one-piece upper handle shell 26. However, the detachable one-piece upper handle shell is located above the foot portion, instead of covering and extending below at least substantially a foot portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
